

George Peguero & his Salsa band

George's music combines different styles of salsa, ranging from the traditional to salsa erotica and timba, with elements of hip hop and rap, to create a vibrant and original sound.

The arrangements are subtle and sophisticated while the melodies have a haunting quality that is a characteristic of all George's work and gives it universal appeal.

The are contemporary but generally positive and optimistic with that zest for life so typically Cuban.

The Repertoire of the band is based on Cuban traditional salsa, as well as New York and Puerto Rican style.

Above all this is great dance music - enjoy !
