

The Bootleggers

The Bootleggers are not your average covers band. These guys really are Sheffield's only super group. All members have at some stage been part of famous line-ups and played with the industries biggest names.

They are all session players and instructors, and all great vocalists, making for a night of stunning harmonies rivalled only by the Beach Boys. Truly an all singing, all dancing, show-stopping musical sensation.

This Experienced, Youthful and Dynamic Band are the only Band you'll need to get your party started. The Bootleggers cover all genres of popular music, from the sounds of the sixties and the sensational seventies, through the electric eighties to the modern sounds of the present day.

These styles interlaced with Soul and Jazz influences make them the band for all occasions. The High Octane nature of the band never fails to deliver a formidable nights entertainment and has left audiences gasping and 'danced out', wherever it has been!

The Bootleggers come fully self-contained, with lights, and a high-quality P.A. system for clarity rather than ear ripping volume. This clarity is accentuated by the superb four part harmony that the band delivers. They also run a spin-off band that is a tribute to The Beatles, playing a wide range of their celebrated music.
