

## Portable Appliance Test Certificates

The following lists all items that have been inspected and tested to the required standard for portable appliances with the following test standards and results recorded at the time of the test by a person suitably qualified to test and inspect portable appliances on a high quality industry recognised and calibrated test instrument.

All listed items have been certified PASSED on behalf of the following client, by: **PAT4MUSIC** certified  
This list is the abbreviated list and does not display results - for full certificate including results contact:
