Certificate of Portable Appliance Testing

Electricity at Work Regulations 1989

Site of Testing

LONDON

Total number of appliances inspected and tested:

45

Please see accompanying portable appliance test results for further details.

Scope:

Appliances tested as directed.

- **Suggested date of next formal inspection: OCT 2015**

This certifies that the electrical appliances detailed in the database provided have been tested for electrical safety in accordance with the Institution of Electrical Engineers Code of Practice for In-Service Inspection and Testing of Electrical Equipment. This in no way guarantees the future safety of the appliance, the user of any appliance should be alert to any defect or fault that may occur. If the user is in any doubt as to the safety or correct operation of an appliance, then the appliance should be removed from service for further inspection by a competent person.

Any appliance which has failed the test is detailed in the database report provided. The appliance has also been labelled "FAILED" and disabled by the inspector for safety.

**ANY APPLIANCE WHICH FAILED THE TEST SHOULD BE REMOVED FROM SERVICE
UNTIL THE DEFECT HAS BEEN RECTIFIED.**

Date completed: 20/10/2014
Inspector(s): MR L BUTLER
